

# ILEETA

## International Law Enforcement Educators and Trainers Association

### 2018 ILEETA Conference Certification Course Registration Links

*Certification courses require advance registration because of limited attendance. Course registration is first come - first served. Use the links below to register for these courses. Use your ILEETA username (preferred email address) and password and you won't have to fill in all the data fields as the Wild Apricot system will recognize you and auto populate many of the data fields. Each URL below includes the course description and instructor bios (the others can be found on the [conference site map page](#)). Some courses may charge an additional fee up to \$40 to cover costs of materials and certification.*

*The four courses at the bottom of this listing require you to email the point of contact to register. Please include your name and agency information in your email and the name of the course you wish to register for. You must be registered to attend the ILEETA Conference to attend these courses (don't have to have paid your invoice yet) or your registration may be cancelled.*

*If you must cancel your certification course registration, please contact us at [info@ileeta.org](mailto:info@ileeta.org) so that someone else might be able to take your place. Online course registration also includes a waitlist so that if you are unable to register before a course is filled you may be contacted in the event other attendees cancel.*

Aerosol Weapons OC Instructor \$40 - Course URL <https://ileeta.wildapricot.org/event-2785290>
